TERMS

1. Bench rate: 15% off current list on all catalog parts, starting with your next order. Freight is billed at cost.
2. Each invoice carries a "Bench rate (15%) applied" line. The discount comes off at invoicing, so your cart and order confirmation still show list.
3. When list prices change, bench prices move with them: 15% off the list price in effect on the day you order.
4. Parts are invoiced without sales tax while your resale certificate is on file.
5. The rate applies to this account only and cannot be transferred. It is good through December 31, 2026 and reviewed each January.
6. Bench pricing is confidential and extended to a small number of repair shops. Please do not share, post or forward this sheet or its prices.
