CORKTOWN AUDIO WORKS

Bench Report

17241 Prairie St, Detroit, MI 48221 | kofi@corktownaudio.com | (313) 555-0147

SKU: CAW-1138
Item: Technics SL-1200MK2 direct-drive turntable, silver
Serial: GE6JA28417
Acquired: 2026-10-10, Ferndale estate sale
On bench: 2026-10-13 to 2026-10-21
Technician: Kofi Mensah

Work performed

1. Platter bearing cleaned and re-oiled.
2. Pitch slider, start/stop switch and speed buttons cleaned.
3. Tonearm bearings checked, no play. Cue lever lowers smoothly.
4. Ground lead and fixed RCA leads checked for continuity. No hum.
5. New headshell leads. New Ortofon OM 10 mounted on the original headshell, aligned, 1.5 g tracking force, anti-skate set to match.
6. Dust cover cleaned and polished. Hinges hold at any angle.
7. Strobe lamp and stylus light working.

Test results, 2026-10-21 (pitch at 0, quartz lock on)

33⅓ rpm:	within ±0.1% on the strobe
45 rpm:	within ±0.1% on the strobe
Wow and flutter:	0.025% WRMS, 3150 Hz test track
Pitch range:	+8% / -8%, smooth across the slider
Rumble and hum:	none audible at listening level

Screenshot of the strobe and W&F meter readings: CAW-1138_bench_screenshot_2026-10-21.png

Cosmetic: light hairlines on the dust cover, visible only under raking light. No dents, chips or cracks.

Result: PASS, all functions to spec.

Kofi Mensah, 2026-10-21
